

# SHREE SAI POLYMERS

(ANTICORROSION ENGINEERS & FABRICATORS)

Mfg. : Industrial Rubber Rollers, Rubber Linings, Rubber Mouldings & Parts, FRP Moulding, PP/FRP Pipes & Scrubber Systems.

Reg. Off. & Works : Plot No. C 105, MIDC, Melagaon, Tal. Sinner, Dist. Nashik - 422113

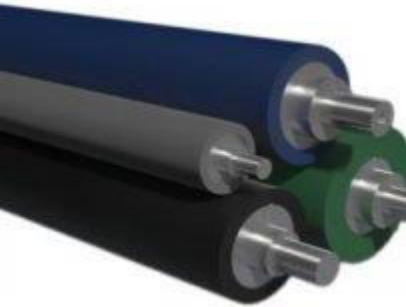

Mobile : 09657198676 / 08087271906 E-mail : shreesaipolymers@yahoo.com

**SHREE SAI POLYMERS** a **ISO 9001:2008 certified company** based at M.I.D.C Malegaon-Sinnar District : Nashik. is promoted by technocrats having over twenty years of professional and business experience, supported by strong technological outlook, is integrated in the **RUBBER COVERED ROLLERS MANUFACTURING UNIT**. **SHREE SAI POLYMERS** started with anti-corrosion solutions like Rubber Lining etc to various Power Plants/Projects, Chemical Industries and other related Industries.

We manufacture wide range of Rubber Rollers are Ebonite Rollers, Natural Rubber Rollers, Nitrile Rubber Rollers, Silicone Rubber Rollers, EPDM Rubber Rollers, Neoprene Rollers and NT, PVC Rubber Rollers. Our products go through rigorous quality checks in terms of functionality and durability standards. Continuous development and time to time up-gradation of infrastructure and manufacturing facilities to offer superior quality products, meeting delivery commitments of its clientele, which has led SHREE SAI POLYMERS to be a pioneer in Rubber Roller manufacturers.

## PRODUCTS :

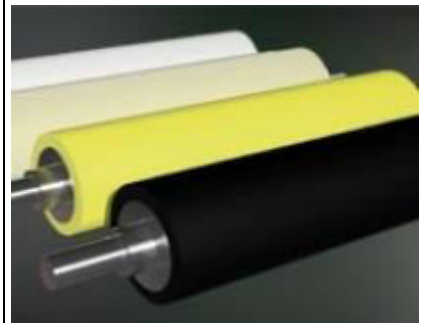

**Rubber Roller for Printing**

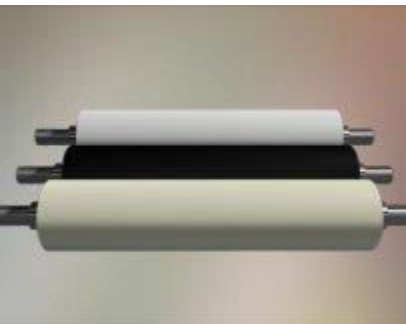

**Rubber Roller for Textile**

**Industrial Rubber Roller**

**Rollers for Plastic Film**

**Rubber Roller for Paper Mills**

**Rubber Roller for Miscellaneous Application**

## INDUSTRIES WE SERVE :

### Steel Industry

Bridle Rolls | Squee Roll | Pinch Rolls | Hold Down Rolls | Snubber Rolls | Applicator Rolls | Pick Up Rolls | Leveller Rolls | Deflector Rolls | Accumulator Rolls | Steering Rolls | Dipping Rolls | Guidance Rolls | Support Rolls | Sink Rolls | Stabilizer Rolls | Wringer Rolls | Table Rolls |

### Paper Industry

Wire Selection: Table Roll | Breast Roll | Guide Roll | Return Roll | Tension Roll | Drive Roll | Suction Couch Roll | Lumpbreaker Roll | Wet Press Section: Suction Press & Pick-Up Roll | Top Press Hard Roll | Blind Drilled Press Roll | Grooved Press Roll | Felt guide Roll | Paper Carrying Roll | Dryer Section: Felt Guide Roll | Size Press Hard & Soft Roll | Soft Breaker Stack | Hard Breaker Stack | Coating: Backing Roll | Film-Coater Roll | Applicator Roll | Finishing: Soft Nip Calender | Reel Spools | Supercalendar | Yankee Section: Suction Pressure Roll | Blind Drilled Pressure Roll | Plain Pressure Roll

### Packaging Industry

Blown Film Extrusion: Nip Rolls (Pulling/ Stretching) | Corona Treatment Rolls | Lamination Rolls | Winder Rolls | Flexography/ Rotogravure Printing: Impression rolls | Ink Fountain rolls | Pressure Rolls

### Leather Industry

Setting-Out Machine Rolls | Samming Machine Rolls | Buffing Machine Rolls | Splitting Machine Rolls | Fleshing Machine Rolls | Shaving Machine Rolls

# SHREE SAI POLYMERS

(ANTICORROSION ENGINEERS & FABRICATORS)

Mfg. : Industrial Rubber Rollers, Rubber Linings, Rubber Mouldings & Parts, FRP Moulding, PP/FRP Pipes & Scrubber Systems.

Reg. Off. & Works : Plot No. C 105, MIDC, Melagaon, Tal. Sinner, Dist. Nashik - 422113

## Glass Industry

Annealing Ovens Rolls | Feed Rolls | Heat Resistant Rolls | Hold-down Rolls | Idler Rolls | Nip Rolls | Squeegee Rolls | Support Rolls | Washer Rolls | Lamination Rolls

## Textile Industry

Mercerising Machine Rolls | Dying Machine Rolls | Bleaching Machine Rolls | Stenter Rolls | Mangle Rolls | Jigger Rolls

## Wood Industry

Applicator Rolls | Anvil Rolls | Band Saw Wheels | Contact Rolls | Feed Rolls | Glue Spreader Rolls | Grooved/Serrated Rolls | Laminating Rolls | Pull Rolls | Wide Bed Sander Rolls | Doctor Rolls | Coating rolls | Non Stick/ High Release Coating Rolls

## Rexine/Synthetic Leather Industry

Embossing Rolls | Coating Rolls | Contact Rolls | Printing Rolls

## Food Grade Applications

Special Food Grade Rubber Rolls

# SHREE SAI POLYMERS

(ANTICORROSION ENGINEERS & FABRICATORS)

Mfg. : Industrial Rubber Rollers, Rubber Linings, Rubber Mouldings & Parts, FRP Moulding, PP/FRP Pipes & Scrubber Systems.

Reg. Off. & Works : Plot No. C 105, MIDC, Melagaon, Tal. Sinner, Dist. Nashik - 422113

Mobile : 09657198676 / 08087271906 E-mail : shreesaipolymers@yahoo.com

## Printing Industry

Sheetfed Offset Rolls | Web & Newspaper Offset Rolls | Letterpress Rolls

## Conveyor Rolls / Pulleys

Drive Head & Tail Pulleys | Take-Up Pulleys | Snub & Bend Pulleys | Self Cleaning Spiral Wing & Drum Pulleys

## TECHNICAL SERVICES :

### Rubber Covering

The core business of SHREE SAI POLYMERS Rolls revolves around covering new and used rubber rolls. The company has been catering to the needs of domestic as well as international clients from past 35 years.

While manufacturing the rubber covers, the company takes many factors into account such as operating speeds, load, pressure, temperature, friction, medium etc., the characteristics of the end product and the hardness of the cover material.

### PU Covering

SHREE SAI POLYMERS Rolls is proud to have the latest technology for polyurethane covering, "Ribbon Build System". Our versatile range of PU covers delivers exceptional performance as compared to rubber and conventional polyurethane covers.

Our PU covers assures reduced downtime for roll changing, excellent abrasion and tear resistance, extreme compressive strength and outstanding compatibility with solvents and acids.

## Core Manufacturing

We are a trusted name for more than three decades for precision OEM and end user of custom rollers. Unmatched expertise from the beginning to the final delivery of the products is the specialty of SHREE SAI POLYMERS Rolls.

The company has achieved perfection in all the processes including material selection, machining, welding, balancing and finishing.

## Regrinding

Regrinding of roll covers results in faster turnarounds than a complete recover. Used rollers are also treated with equal importance.

The expert engineers in the company make sure that a reground cover returns to your line ready to perform most efficiently. It's our constant endeavor to maximize cover life that will give value to the customers.

## Balancing

The balancing of rollers helps in extending roller life. It also maximizes the line speeds. Balancing results in longer covering life, reduction of bearing surface wear, decreased drag, increased control, and the ability to run webs at lower PLI.

## Repairing

In most of the cases worn rolls can be repaired to original specifications. It takes less time than manufacturing new rolls. It is also economical. SHREE SAI POLYMERS Rolls makes use of a wide choice of welding alloys to build surfaces back to size.

Repairing can also be done by replacing broken roll journals. Just about every part of an existing roll can be repaired or replaced. We do a complete evaluation of every roll before any rework is begun

# SHREE SAI POLYMERS

(ANTICORROSION ENGINEERS & FABRICATORS)

## INFRASTRUCTURE :

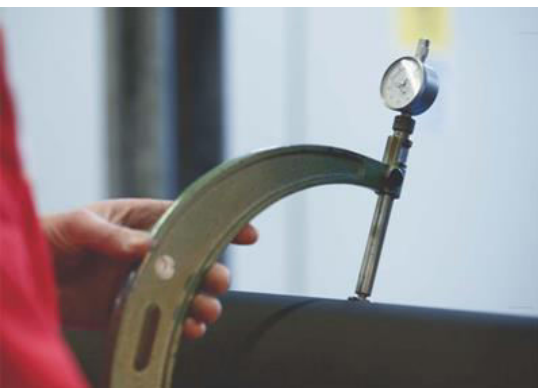

SHREE SAI POLYMERS has its manufacturing unit in M.I.D.C. Malegaon-Sinnat, Dist. Nashik, which spreads over 10,000 sq.ft of Industrial Land with present built-up area of more than 7,500sq.ft with an Integrated Production facility where all activities are carried out under one roof.

## The STATE OF THE ART TECHNOLOGY consists of

- Elastomer compounding, roller coating, spindle, core fabrication and machining.
- Metallic Spindles/Cores are covered by modern THREE ROLL COATING MACHINE.
- Industrial Rollers are covered by modern FULLY AUTOMATIC STRIP BUILDING MACHINE.
- The finishing operations are done on UNIVERSAL CYLINDRICAL GRINDING MACHINE and modern BELT GRINDING EQUIPMENT to achieve required tolerances and superior surface finish.
- The testing segment is done with sophisticated instruments to check the dimensional accuracy and hardness.
- Highly skilled and specialized human resources has been trained to give the best qualitative and quantitative outputs.
- Rollers size upto 1000mm diameter x 6000mm length and 7.5 MT weight is handled.
- A Eco-friendly industry which adheres to environmental policies.
- Caters to exigency requirement of valued clientele with prompt services

## QUALITY :

SHREE SAI POLYMERS is an ISO 9001:2008 certified company.

The following supports our control of quality

- Quality Control System - Written standards and procedures that govern how we operate and control our operation.
- Communication - Understanding the importance of excellence.
- Inspection - In process and final. Thorough, accurate and reliable.
- Calibration Program - Inspection equipment is held to the highest accuracy.
- Safety committee - Safe working conditions mean people can focus on quality.
- Certified Welders - Carefully trained welding today's diverse alloys.

Thanking you
